

# AB 1 – How to Use AI to Improve Your Grammar Skills

## Step-by-Step Guide

	Open an AI chatbot (like ChatGPT, Deepseek, Microsoft Copilot, etc.) Ex: <a href="https://chatgpt.com/">https://chatgpt.com/</a> in Safari
	Upload (only if you login) or paste the text on the next page into the chatbot.
	Copy one of the prompts below into the chatbox. Careful of Prompt 3.
	Read the response from the AI.
	Give the Prompt a rating from 1 to 5.
	Go back to step 3 and try a different prompt!

## Prompts to Try Out

	Tactic	Prompt
1	Explain Grammar Rules	Explain the past perfect in German. Give 3 examples
2	Generate Practice Exercises	Create a gap-fill exercise with 10 sentences using the past perfect.
3	Correct Mistakes	Upload or copy a text you wrote in class (for example a diary entry) into the AI and write: Here is my text. Correct any grammar errors and explain the fixes.
4	Create a Quiz	Make a 5-question multiple choice quiz on past perfect
5	Generate „Wrong“ Examples	Write 5 sentences with common past perfect mistakes. I'll correct them. Don't provide the answer until I say so.

 End of Lesson: Copy the chat into the file of the last lesson.
